

## ENVIRONMENTAL POLICY

It is our commitment as a hotel and the management of the King Jason Paphos Hotel to ensure that our employees, management team, external suppliers, visitors and guests are committed to our environmental protection ideology.

It is our belief that the environment has a tremendous importance towards our future and health, and we ethically and legally understand our responsibilities towards its protection.

The main goals in relation to the environmental protection are the following:

### **Certification**

To reinforce and continue to perform the high level of legal, quality and safety methods towards the protection of the environment, the King Jason Paphos Hotel will be certified with the Gold Travelife award by February 2022.

### **Actions and assessments**

The King Jason Paphos Hotel commits to regularly perform internal inspections in order to satisfy all legal obligations concerning environmental protection and will develop plans to monitor and assess activities that include: monthly energy consumption, recycling of PMD, glass, paper, batteries, frying oils.

### **Involvement**

The King Jason Paphos Hotel commits that all parties involved in the operation of the hotel such as, employees, external suppliers and third parties, visitors and guests will be thoroughly informed of our environmental practises and sensitivity and demand to follow any environmental legislation and ethical obligations the King Jason Paphos Hotel follows.

### **Chemicals & Purchasing**

The King Jason Paphos Hotel has committed to the adoption of a policy of purchasing and using mostly environmentally friendly cleaning supplies (90% biodegradable) and provided the necessary training to its employees for their appropriate use. Further, The King Jason Paphos Hotel purchases and promotes solely from the local market suppliers. This will help us reduce CO2 emissions from transportation of products from abroad. Additionally, prior to every purchase of electrical equipment the hotel makes sure that they are energy efficient.

### **Development of our environmental sustainability methods**

The King Jason Paphos Hotel will ensure to continue the above and develop necessary action plans. Further, the hotel will strive to create a team responsible for carrying and monitoring all environmental practises. All members of the King Jason Paphos Hotel will be introduced and directed to acknowledge the environmental challenges the world faces, to understand the hotel's impact on the environment and will be trained to follow the necessary actions provided by the management team to limit further environmental impact.
